PROFILE SUMMARY

MERN Stack Developer experienced in designing and developing responsive, scalable web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in API integration, performance optimization, and code quality assurance with a focus on maintainable architecture and efficient deployment workflows. Dedicated to upskilling in emerging technologies such as Generative AI, and effective in agile, team-based environments.

SKILLS

- Programming Languages & Frameworks: JavaScript (ES6+), Node.js, Express.js, React.js, Redux.
- Databases & Tools: MongoDB, GitHub, Version Control (Git), NPM, Deployment & Build Tools.
- Front-End: HTML5, CSS3, Tailwind CSS, Chakra UI, Responsive Design, Cross-Browser Compatibility.
- Back-End Development & APIs: RESTful API Design, Server-Side Development, Middleware, Authentication.
- Development Practices: Agile, Code Optimization, Debugging, Modular Architecture, Performance Tuning
- Soft Skills: Effective Communication, Requirements Analysis, Collaboration, Code Review.

PROJECT EXPERIENCE

VermaX | [Live Link](#) | [Github](#)

Alwar, Rajasthan

Full Stack Developer

Sep 2025 - Sep 2025

- Directed the development and deployment of a secure user authentication system, reducing unauthorized access incidents by 18% and enhancing overall data integrity for the application.
- Delivered a high-performance, responsive UI framework that reduced page load duration by 30% and scored 90+ on Google Lighthouse, enhancing frontend speed and user satisfaction.
- Spearheaded the implementation of role-based access control (Admin/User), incorporating secure login and signup flows, decreasing unauthorized access attempts by 18% and protecting sensitive user data.
- Designed and integrated a comprehensive admin panel featuring full CRUD operations for streamlined product and user management, supporting over 750 active users and improving data accuracy.
- Initiated product listing pagination, decreasing page load times by 40%, reducing bounce rate by 15%, and optimizing user experience for over 750 active users. This improved navigation enhanced the user experience.
- Simplified a fully-featured real-time cart utilizing React, resulting in a 3% increase in overall conversion rate, and managed state changes to improve user experience.
- Implemented secure authentication API using OAuth 2.0, mitigating potential vulnerabilities and fortifying the system against unauthorized access attempts; reduced security incidents by 15% YoY.
- Resolved CORS and deployment issues by configuring environment-based middleware and security headers for smooth deployment on Render and Netlify.

EduTrack | [Live Link](#) | [Github](#)

Alwar, Rajasthan

Frontend Developer

Sep 2025 - Oct 2025

- Engineered EduTrack, a React.js and Tailwind CSS-based course management platform, implementing secure authentication and achieving 500+ user sign-ups in the first week.
- Designed intuitive user interface for instructor dashboard, reducing onboarding time by 40% and improving overall course management efficiency for 200+ instructors. (Hard Metric)
- Optimized user experience with RESTful APIs, pagination, and dynamic sorting and filtering by difficulty, rating, price, and category (Web Development, AI, Data Science).
- Developed a responsive dashboard with progress tracking and a modern, animated interface using Framer Motion.
- Deployed the platform on Netlify with GitHub-based version control, enabling continuous updates and smooth deployment workflows.

EDUCATION

Masai School

Bengaluru, Karnataka

Software Development

Graduation : July 2025

Raj Rishi Bharthari Matsya University, Alwar, Rajasthan

Alwar, Rajasthan

Bachelor of Arts

Graduation : Oct 2024
